## CALIFORNIA PROPOSITION 65 PRODUCT COMPLIANCE

Under the California Safe Drinking Water and Toxic Enforcement Act of 1986 (known as Proposition 65 or “Prop 65”), the State of California creates and updates annually a list of chemicals known by the State of California to cause cancer or reproductive toxicity (“Prop 65 List”).

Prop 65 requires “clear and reasonable” warnings to be given if, in the course of doing business, a person knowingly and intentionally exposes an individual in California to a chemical on the Prop 65 List. Prop 65 also prohibits knowingly discharging or releasing a chemical on the Prop 65 List such that it is likely to, or will, enter any California drinking water source.

Based upon ZPE’s current level of knowledge of our internal business operations and chemicals used and according to our supplier’s declarations, ZPE’s products do not require a Proposition 65 warning label.

ZPE does not control or have knowledge of the end uses or specific applications of our products by our customers.

The decision to include or not include a Proposition 65 notice (label) must ultimately rest with the customer utilizing ZPE’s products

**\*\*\* We recommend our customers to use the following warning to California customers**

WARNING: Cancer and Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

Additional information concerning Proposition 65 can be found at the following web site: <https://oehha.ca.gov/proposition-65/proposition-65-list>
